

# Aquanebula

## Exhibition

**AQUANEBULA** is the centrepiece of the festival; an immersive collaborative interactive group installation by over 50 artists and support workers from Mosaic in 2024 that explores the immense power and mystery of the ocean, a fusion of water and magical luminescence of the living sea.

Aquanebula is located throughout all the exhibition spaces at MAC and be exhibited from 10th May-1st June.

MAC Opening times are:  
Tuesday-Friday 10am-5pm.  
Saturday 10am-2pm.  
Closed Sundays & \*Mondays.

\*Special Gallery Opening Monday  
27th May, 10am-1pm

SECOND ECHO ENSEMBLE INC

### Relache: The Last Dance on Earth

Imagine genre-defying contemporary dance, meets live action dada comic book, meets silent movie that interrogates the concept of cancelled culture - The idea that if you do something that others deem problematic, you automatically lose all your currency. Your voice is silenced. You're done.

### The BOND

#### (Experimental Sound Installation)

Presented in Partnership with the University of Tasmania at the Plimsoll Gallery

A meditative sound bath, The BOND explores our ancient connection to place through geology & the sacred sounds of the human voice -inviting participants to unfold & surrender to all of who we are. The work explores the emerging edges of Artificial Intelligence in generating sound & visual media. Luke is keen to search the connections between geology, creation & Artificial Intelligence.

The Artificial Intelligence is the stones intelligence. The stones are the raw materials. In the chips & the computers. Geology. Their age. Their mind. Knowledge & spirit. The earth. Ancient-ness. Making the invisible visible. - Luke John Campbell-

The BOND will be presented at the Plimsoll Gallery in July 2024. It will be installed for three weeks & include an immersive installation, performances & gallery talks.

Living life *my way*

2024

**9TH MAY-1ST JUNE**
